## DA EARN BASE COAT 687 EXTERIOR

### PRODUCT INFORMATION

*Recommended for External Application*

#### DESCRIPTION

DA EARN BASE COAT 687 EXTERIOR is a high-quality water-resistant cement-based skim plaster designed as a base coat for external concrete ceilings and wall surfaces.

#### USES

Suitable for external application on concrete ceilings and all wall surfaces.

#### Main Use:

Fine leveling and surface finishing, covering surface irregularities to improve smoothness and decorative effect.

#### ADVANTAGES

- Premixed for consistent quality
- Easy mixing by just adding water
- Good workability for smooth application
- Excellent bond strength
- User-friendly application
- Suitable for exterior wall and ceiling surfaces

#### MIXING

Add approximately 7 to 8 litres of clean water to 1 bag (40kg). Mix with a mechanical mixer for 3 to 5 minutes until a homogeneous paste is achieved.

#### APPLICATION

Apply the paste mixture with a steel trowel or spray machine. Recommended thickness is 2mm to 4mm per layer. Open time is 30 minutes and workability time is 50 minutes.

#### HANDLING / STORAGE

Packed in 40kg bags. Store in a dry shaded place free from moisture. Shelf life is 1 year in original packing. The material is non-hazardous. In case of eye contact, wash with plenty of water.

#### TECHNICAL DATA / SPECIFICATION

Appearance	Grey
Pack Size	40kg
Water Powder Ratio	7-8 litres
Mechanical Mixer	3-5 min
Open Time	30 min
Workability Time	50 min
Pot Life	Approximately 30 min
Curing Time	Initial set 240-360 min; Final set not more than 500 min; Full compressive strength 28 days
Recommended Thickness	2-4 mm per layer
Coverage	Approx. 1.1 kg/m <sup>2</sup> per 1 mm thickness

Pre-Pack

User Friendly

Excellent Bond Strength

Long Open Time

*To make your job acquisition process faster and more accurate*
